### General Description

The Bureau Telecommunications and Post St. Maarten has provided additional and updated information concerning the implementation of the 721 NPA. Changes were made to contact information, prefix information, and test numbers.

### Implementation of the New 721 NPA

Introduction of the 721 NPA will begin with a period of permissive dialing. During the permissive dialing period, the use of either the current country code of 599 or the new 721 NPA will be acceptable for a dialed number terminating in St. Maarten. After the permissive dialing period ends, all calls dialed with the incorrect country code will be routed to intercept and a recorded message instructing callers to dial the correct country code (1) and area code (721). Country code 599 will continue to be used in remaining territory of the former Netherlands Antilles, namely Curacao, Sint Eustatius, Saba, and Bonaire.

Key implementation dates are as follows:

<b>Implementation Status</b>	<b>Time</b>	<b>Date</b>
Start of permissive dialing and latest date for all carriers to activate new NPA 721 code	2:00 AM* (Local St. Maarten Time)	September 30, 2011
End of permissive dialing and start of Mandatory dialing of the new NPA	2:00 AM* (Local St. Maarten Time)	September 30, 2012
Earliest date for the end of recorded announcement		September 30, 2013

\*St. Maarten is in the Atlantic Time Zone

### Central Office Code Listings

Attached is a list of the central office codes that exist in the new 721 NPA and their locations.

This information is current as of February 8, 2012.

Since this information may change over time, please consult the LERG™ Routing Guide or the NXX Activity Guide (NNAG) for updated information. Information in the LERG and NNAG is available by license contract from Telcordia Routing Administration (TRA), at 732-699-6700.

A map of the affected area is included in previous Planning Letters.
